# God Backwards.....

When God had made the Earth  
and sky,  
The flowers and the trees,  
He then made all the animals,  
The fish, the birds and bees.

And when at last He'd finished,  
Not one was quite the same,  
God said, "I'll walk this Earth of  
mine, and give each one a  
name."

And so He traveled far and  
wide, and everywhere He went,  
A little creature followed Him,  
Until its strength was spent.

When all were named upon the  
Earth, and in the sky and sea,  
The little creature said, "Dear  
Lord, there's not one left for  
me."

Kindly the Father said to him,  
"I've left you to the end,  
I've turned my own name back  
to front, and call you DOG, my  
friend!"

# Why Dogs Make the Best BFFs

by: Patricia Caruso

There are many reasons why dogs are known as man's best friend. The joy they bring to our lives is endless. They teach us how to live in the moment and to find happiness in the simple things. Most of all, they demonstrate how to love unconditionally.

Here are 10 more reasons dogs are the best friends:

## 10. The Original BFFs

Some 15,000 years ago dogs became human companions. Cavemen first tamed wild wolves to join them on the hunt

## 9. Endless Entertainment

There's nothing that says pure joy like pups at play; whether watching our four-legged friends with zoomies, or romping with their pals at the park,

## 8. Great Company

Canine companionship is like no other. This friend always wants to do whatever you're doing. Want to go for a walk? YEP! How about a car ride? Double yep!! NetFLix and chill? You betcha!

## 7. Lower Stress Levels

Our fur-ever friends greet us with a wagging tail. Having a canine companion helps us control stress by increasing levels of oxytocin (a hormone in the body that releases feelings of joy) and by reducing levels of cortisol (a stress-related hormone) in the body.

## 6. Sleep Better

A recent survey of pet parents showed that sleeping in bed with their pup gave them a stronger feeling of comfort and security which lead to a restful night's slumber.

## 5. Loyalty

Our dogs' steadfast loyalty compels them to be by our side, and keep us safe from harm -- at any measure -- until their last breath.

## 4. Better Health

All those walks add up: Walking helps lower the risk of high blood pressure, high cholesterol, and type two diabetes.

## 3. Live Longer

Dogs provide a sense of purpose and create opportunities for owners to socialize with others on their adventures together, resulting in psychological and emotional benefits.

## 2. Unconditional Love

It does not matter to your dog if you put the dishes away or if you're having a bad hair day. S/he loves you—flaws and all—forever and ever.

## 1. They Understand

Dogs have learned how to read human expressions, emotions, energy and cues. They always know the perfect reaction to make us feel better.
